### Other economic news

Monday: Purchasing managers' reports in the UK and US kick off a busy week for statistics on both sides of the Atlantic.

The UK purchasing managers' index for March will be closely watched for signs of inflationary pressures in manufacturing industry, while analysts will search for indications of a slowdown in US output growth.

Tuesday: Growing inflationary pressures in Italy are expected to feed through into faster year-on-year growth of consumer prices in March. Wednesday: Kenneth Clarke, UK Chancellor, and Mr Eddie

George. Bank of England governor, meet to discuss mone-

tary policy amid waning expectations of an interest rate rise following last week's Bundesbank rate cuts and Mr George's description of sterling's recent weakness as a "wobble". Thursday: March figures are expected to reveal a modest decline in German unemployment. British manufacturing output and industrial produc

tion figures for February should show some recovery

after January's falls. But yearon-year growth rates are expec-

ted to dip below last year's lev-
